

The Presidents Thoughts

Hi All, we are now well into 2019 and the weather is still basically mild with loads of snow drops and my first daffodil out.

Well, so much for the gardening review, but with spring around the corner I am planning, as much as I ever do, what events I will be attending this season. So far I am looking at the best way to attend the European meeting in Holland, also the Kop Hill hill climb, Wallingford Festival, Prescott Hill Climb, Shuttleworth, Bicester Fly drive and the ROG etc. The Historic Monte Carlo stopped off in Banbury as a check point on their way to Dover and Banbury did them proud filling the centre of the Town with Classic cars of all description.

Let us try to make up a calendar of events, local or otherwise to our readership, so that our esteemed editor can make as big a list as possible to be printed in our next publication. As a Ford Model AA truck owner, I went to a Christmas lunch - at the end of January to a very pleasant Pub near Aylesbury, which set me thinking it being fairly central to a lot of our members - would it be something of interest to consider? If so, let me know.

Keep the wheels moving

Bill
