

## ROG 2019

The Rally of the Giants was held in the grounds of Blenheim Palace again this year under clouded skies and against the competition of the F1 at Silverstone and the finals of the tennis at Wimbledon and of the cricket at the Kennington Oval which in no way seemed to effect the excellent turn out .

The Studebaker fraternity got to gather under a much smaller oak tree than last year (Blenheim has many mature oaks one of which is the oldest in England) and as in previous years were well provisioned with Ann's cakes and shortbread to die for, but to the cars ,we had two small trucks a President Speedster, a '55 Commander Coupe and a '49 Starlight Coupe, plus my speedster in our group but amongst the wider field of mixed cars were two late twenties Commanders and possibly others.

Regards Bill Baker.

The photographs were taken after some of our group had left.

Thanks to Bill Baker and Richard Atkinson for the photos. If anyone else has photos to share please send them in.
