

The Presidents Thoughts

I would like to thank all those members paid up and otherwise who came to the ROG at Blenheim this year, not that I should be thanking you as I hope your reason for coming is to catch up with fellow enthusiasts and have a worthwhile day out.

My thanks should really go to the officers of the Pre 50 Car club David Radcliffe-Watts as the rally organiser in particular, The fine weather in contrast to a couple of years ago made the whole event very pleasant and our range of cars from the 20s to the 60s contrasted to the other single make clubs and attracted many of the viewing public to ask vaguely intelligent questions or to relate stories of previous Studebaker ownership by themselves or family members.

A general discussion took place about meeting up for lunch at some future time and location, I look forward to getting more details.

The Dolphin Motor Club Newbury are running a charity car tour on the 24th of September and the All American Stars & Stripes weekend on the 30th of September at Prescott should be interesting. If any one wishing to attend that event wishes to camp at mine or a B&B locally to me we could have a nice run through the Cotswold's to the event.

I read somewhere that August is the warmest month of the year (as I look out at the rain) which is why there are lots of events, village fetes etc. So how about our roving reporters complete with Hasselblad firmly grasped go out and report back on events in your areas , I am sure our esteemed editor would be grateful.

Keep the wheels moving

Bill
